

## Two Souls preview now available free to play on Android

**Thursday, 3<sup>rd</sup> April:** Introducing one of the most challenging games to grace the Google Store; Two Souls. In the game you take control of two little androids on their journey through the stars. Although their goal is the same, their paths are very different. Using the analog sticks guide your two little soul mates towards the end zone of each level in the best time you can achieve!

- 10 levels, each more challenging than the last
- Challenge mode, a true test of dexterity!
- Achievements; beat the challenges set by the developers and earn achievements via Swarm.
- Leader- boards: Attain bragging rights and post high score on; Swarm, Facebook and social media. Show the world you have what it takes to be the best!
- Beautifully composed soundtrack.

Two Souls is Train2Game student studio; Derp Studio's, award winning game from the Swan PR competition. Special thanks go to Train2Game for enabling Derp Studios to use its iconic robot as the character in the game, and many others in getting the release where it is today.
